ABOUT ME

I am a highly motivated aspiring Frontend Developer, bringing a unique background in hospitality to the tech industry. My strong problem-solving abilities enable me to tackle challenges head-on, and I pride myself on my capacity to rapidly assimilate new technologies. With a user-centric approach to development, I am skilled at crahing solutions that enhance user experiences. My track record demonstrates a remarkable ability to adapt, collaborate effectively within team settings, and handle high-pressure scenarios with poise. I am eager to apply my frontend development expertise to contribute to cutting-edge projects and drive innovation within a dynamic team.

WORK EXPERIENCE

Aspiring Frontend Developer
