Portfolio: https://portfolio-website-denys-react.netlify.app/
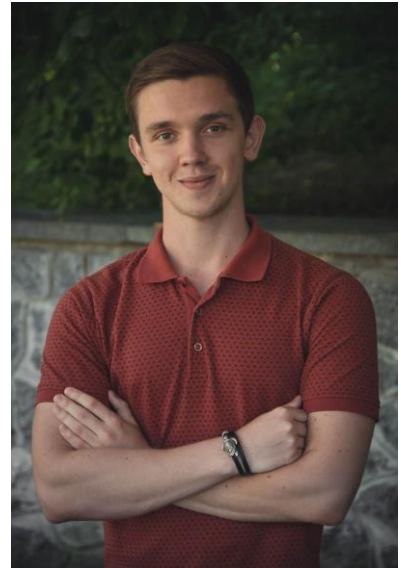

Motivated Aspiring Frontend Developer with a background in hospitality and strong problem-solving skills. Adept at learning new technologies quickly and delivering user-focused solutions. I have proven to adapt, work in team environments, and manage high-pressure situations. Looking for opportunities to leverage my frontend development skills and contribute to innovative projects.

Skills

- Frontend Development: HTML5, CSS3, JavaScript, React.js, TypeScript

- Design & Layout: CSS preprocessors (SASS/SCSS), Responsive Web Design

- Version Control: Git, GitHub

- Development Tools: Vite, Netlify Deployment

- Soft Skills: Teamwork, Communication, Problem-solving, Adaptability

Professional Experience

Aspiring Frontend Developer

Portfolio Projects | 01/2024 – Present

Key Projects:

- **Photography Website (Public):** Developed and deployed a responsive gallery website using Firebase.

- **Photography Website (Admin):** Built an administrative panel to manage photo uploads and gallery content.

- **ChatGPT Clone:** Developed a conversational AI interface using React and modern frontend technologies.

- **Contact Book:** Created a responsive contact management system in React for seamless user experience.

- **Movie Search App:** Built a dynamic movie search application using React and API integration.

- **Pizza & Burger Order App:** Developed a food ordering app using React with user-friendly UI/UX.

- **Search Book App:** Designed an interactive book search application using JavaScript.

- **Weather App:** Built a fully functional weather forecasting app using JavaScript and external APIs.

Achievements:

- Improved website performance by optimizing design and deploying responsive features.
- Developed features that boosted user engagement by providing seamless, mobile-friendly experiences.
- Deployed projects successfully using modern web hosting services.
